### Just Schools: A Whole School Approach to Restorative Practices

In recent years, the education sector has increasingly recognized the importance of fostering positive school climates that prioritize relationships, respect, and community. Central to this shift is the concept of a whole school approach

to restorative practices, which aims to transform school environments into spaces where conflicts are addressed constructively, students feel safe and valued, and learning is optimized. This comprehensive strategy moves beyond isolated disciplinary measures, embedding restorative principles into the very fabric of school culture. In this article, we will explore what a just schools model entails, why a whole school approach to restorative practices is essential, and how schools can effectively implement and sustain this transformative framework.

## Understanding Restorative Practices in Schools

Restorative practices are a set of strategies and principles designed to repair relationships, build community, and address conflict collaboratively. Unlike traditional punitive disciplinary methods, which often focus on punishment and exclusion, restorative approaches emphasize accountability, understanding, and healing.

Key components of restorative practices include:

1. Restorative circles and conferences
2. Empathy-building exercises
3. Inclusive dialogue to resolve conflicts
4. Restorative language and communication
5. Opportunities for students to make amends

When integrated thoughtfully, these practices help create a school environment where students learn conflict resolution skills, develop empathy, and feel a sense of belonging.

## Why a Whole School Approach Matters
