The Myth of Icarus: Origins and Overview

Ancient Greek Roots

The story of Icarus is rooted in ancient Greek mythology, primarily documented in the works of the poet Homer and later elaborated by other classical authors such as Ovid and Plutarch. It is part of the larger myth of Daedalus, a master craftsman and inventor who constructed the labyrinth for King Minos of Crete.

The Narrative Summary

The myth tells of Daedalus, who, along with his son Icarus, is imprisoned in a labyrinth after the death of Minos's wife. To escape, Daedalus crafts wings made of feathers and wax. He warns Icarus not to fly too close to the sun or too close to the sea. However, overcome by the thrill of flight and the allure of the sky, Icarus disregards his father's warnings. As he flies higher, the sun melts the wax on his wings, causing him to fall into the sea and drown. The place where he falls is called the Icarian Sea, symbolizing the tragic consequences of overambition.
