Investigative Process: Tracing the Breach

The investigation into the leak was initiated by the examination board in collaboration with national security agencies and cybersecurity experts. The process involved several key steps:

1. Forensic Analysis of Digital Footprints

Cybersecurity specialists analyzed servers, email logs, and communication channels associated with the exam's preparation and distribution. They looked for anomalies such as unauthorized access, data exfiltration, or suspicious login activities.

2. Interviews and Testimonies

Officials interviewed staff involved in question paper design, printing, and distribution. Students and teachers who reported seeing the questions early were also questioned.
