Common Questions and Correct Answers in the Everfi Financial Game

Below is a detailed overview of typical questions encountered in the game, accompanied by explanations

to help you understand the correct responses.

Budgeting and Expense Management

Question: You receive a monthly income of \$2,500. Your fixed expenses include rent (\$800), utilities (\$150), and groceries (\$300). How much should you aim to save each month?

1. A) \$100
2. B) \$300
3. C) \$500
4. D) \$1,000

Correct Answer: B) \$300

Explanation: Financial experts recommend saving at least 20% of your income. In this case, 20% of \$2,500 is \$500, but given expenses, saving around \$300-\$500 is realistic. Prioritizing savings helps build an emergency fund and future financial stability.

Saving and Investing

Question: If you save \$200 each month in a bank account with an annual interest rate of 2%, approximately how much will you have after one year?

1. A) \$2,400
2. B) \$2,404
3. C) \$2,448
4. D) \$2,500

Correct Answer: B) \$2,404

Explanation: Savings accrue interest, but with 2% annually, the interest on \$200/month totals about \$4 over the year, resulting in approximately \$2,404. Regular saving combined with interest compounding grows your money over time.

Understanding Credit and Loans

Question: Which of the following actions will most positively impact your credit score?

1. A) Making late payments on your credit card
2. B) Using 90% of your available credit limit
3. C) Paying your bills on time every month
4. D) Applying for many new credit accounts in a short period

Correct Answer: C) Paying your bills on time every month

Explanation: Consistently paying bills on time is one of the most significant factors affecting your credit score. Late payments, high utilization, and frequent new credit inquiries can negatively impact your score.

Financial Planning and Goal Setting

Question: You want to buy a new laptop that costs \$1,200. If you save \$100 each month, how many months will it take to reach your goal?

1. A) 10 months

2. B) 12 months
3. C) 15 months
4. D) 20 months

Correct Answer: B) 12 months

Explanation: Dividing \$1,200 by \$100 per month equals 12 months. Planning and consistent saving are essential for achieving financial goals.

Risk Management and Insurance

Question: Why is it important to have health insurance?

1. A) It ensures you won't get sick
2. B) It protects you from high medical costs in case of illness or injury
3. C) It increases your credit score
4. D) It guarantees free healthcare

Correct Answer: B) It protects you from high medical costs in case of illness or injury

Explanation: Health insurance helps cover expensive medical bills, providing financial protection and access to necessary healthcare services.

Additional Tips for Success

1. Review the Feedback: After each question, the game often provides explanations. Pay attention to these to reinforce your understanding.
2. Practice Regularly: Revisit modules or play multiple times to solidify concepts.
3. Utilize External Resources: Supplement your learning with financial literacy websites, videos, or textbooks.
