The plan would be broken down into actionable tasks, such as conducting staff training sessions, revising service scripts, and implementing a feedback system. > Responsibilities would be assigned to team leaders, with clear deadlines and performance indicators. Throughout the implementation, I would monitor progress using KPIs such as customer satisfaction scores and average service times. Regular team meetings would be held to review progress, address challenges, and make adjustments as needed. > Risk management would involve preparing contingency plans for staffing shortages or system disruptions.
