Historical Background of Nigeria's Common Entrance Examination

The Origin and Evolution

The Nigerian Common Entrance Examination (CEE) originated in the mid-20th century as a standardized testing system designed to select students for admission into secondary schools, particularly federal and state institutions. Its primary purpose was to streamline the admission process, ensure fairness, and identify academically capable students from diverse backgrounds. Initially, the examination was more straightforward, focusing mainly on basic literacy and numeracy. Over the decades, it has undergone several reforms to include a broader scope of subjects such as General Knowledge, Verbal Reasoning, and sometimes, specific subjects like Mathematics and English Language, reflecting changing educational standards and societal needs.

Transition to Computer-Based Testing

While traditionally paper-based, recent years have seen discussions and pilot programs on computer-based testing (CBT), aiming to modernize the process, reduce examination malpractices, and improve security. Past questions, therefore, serve as both historical artifacts and tools for calibrating students' readiness for future technological formats.
