Her work emphasized the importance of understanding body

geometry, flat pattern techniques, and the integration of design elements into pattern drafting.

The Philosophy Behind Helen Joseph Armstrong Pattern Making

Systematic Approach to Pattern Drafting

Helen Joseph Armstrong believed in a logical, step-by-step process for creating patterns. Her methods break down complex garment construction into manageable stages, enabling even beginners to grasp fundamental concepts before advancing to more complex designs.

Focus on Fit and Functionality

A core aspect of her pattern making philosophy is ensuring garments fit well and are functional. She emphasized understanding the body's anatomy and how different pattern manipulations affect the final fit.

Creativity Within Structure

While her techniques are systematic, Armstrong encouraged students to explore their creativity within the framework, fostering innovative design ideas that are technically sound.

Key Elements of Helen Joseph Armstrong Pattern Making

Body Measurements and Pattern Development

At the heart of her pattern making process is accurate measurement taking. Armstrong stressed the importance of understanding body measurements and how to translate them into flat patterns.

1. Basic Body Blocks: Creating foundational slopers that reflect individual measurements.
2. Customization: Modifying blocks to design various styles and silhouettes.

Pattern Drafting Techniques

Armstrong's methods include a variety of drafting techniques, such as:

1. Standard Pattern Drafting: Using measurement data to develop basic patterns for different garment types.
2. Draping and Manipulation: Transforming flat patterns to achieve desired design features.
3. Seam and Dart Placement: Strategically positioning seams and darts for optimal fit and style.

Grading and Fit Adjustments
