The Foundations of Mamma Trauma: What Is It?

Defining mamma trauma

Mamma trauma refers to emotional wounds or psychological distress originating from a person's relationship with their mother. These wounds may arise from neglect, overprotection, criticism, emotional unavailability, or inconsistent caregiving. Unlike physical trauma, mamma trauma manifests primarily in cognitive, emotional, and behavioral domains, influencing how individuals perceive themselves and relate to others.

Common sources of mamma trauma

1. Emotional neglect: When a mother is physically present but emotionally unavailable or unresponsive, the child may internalize feelings of inadequacy or unworthiness.
2. Overprotection and control: Excessively controlling mothers can inhibit independence, fostering dependence or rebellion.
