## Historical Perspective: The Evolution of Business Environment in India

### Pre-Liberalization Era (Before 1991)

India's economy prior to 1991 was characterized by a highly regulated, centrally planned approach. The key features of this period included:

1. License Raj: A complex system of licenses, permits, and regulations that controlled almost every aspect of business operations.
2. Protectionist Policies: Heavy tariffs and import restrictions aimed at self-sufficiency but discouraging foreign investment.
3. State Monopoly: Several sectors, including telecommunications, airlines, and banking, were dominated by government-owned entities.
4. Limited Foreign Investment: Stringent policies limited foreign direct investment (FDI), hindering global integration.

This environment often resulted in bureaucratic delays, corruption, and a general climate of uncertainty that deterred entrepreneurship and innovation.

### Post-Liberalization Reforms (1991 onwards)

The turning point in India's ease of doing business came with economic liberalization initiated in 1991. Key reforms included:

1. Market Deregulation: Reducing licensing requirements and liberalizing sectors to promote competition.
2. Foreign Investment Liberalization: Easing FDI norms across various sectors to attract foreign capital.

4. Privatization: Disinvestment in public sector enterprises to improve efficiency.
5. Legal and Administrative Reforms: Establishment of institutions like the Securities and Exchange Board of India (SEBI) to regulate markets.
