Materials and Construction Quality

Frame Materials

The Wayfarers 2 utilize high-quality materials that prioritize durability and comfort:

- Acetate: The primary material for the frame front, chosen for its robustness and ability to hold vibrant colors and intricate patterns. Acetate also adds a certain weight that conveys quality without feeling heavy.
- TR-90 or Grilamid: For the temples, lightweight yet resilient plastics are used, providing flexibility and reducing pressure points.
- Metal Accents: Reinforced hinges

incorporate stainless steel or similar alloys, ensuring smooth operation and longevity. The combination of these materials contributes to a sturdy, lightweight frame that feels substantial but comfortable.

Lens Quality and Coatings

While the frame is the most visible component, the lenses play a critical role in overall performance. The Wayfarers 2 come equipped with high-quality lenses featuring:

The slightly curved temple arms conform naturally to the head's shape, offering a secure fit without discomfort. The lightweight construction minimizes fatigue, making these sunglasses suitable for all-day wear. The nose pads, integrated into the acetate frame, are smooth and designed to distribute weight evenly, avoiding pressure points on the nose.

Adjustability
