Introduction to Youth Skill Training Projects

Youth skill training projects are structured programs designed to impart practical, market-relevant skills to young people, typically aged 15-30. These projects often encompass vocational training, soft skills development, entrepreneurship education, and digital literacy, among others. Their primary goal is to enhance employability, promote self-sufficiency, and foster innovation among youth. The importance of such projects has been underscored globally, especially considering youth unemployment rates that remain stubbornly high in many regions.
