Sample Answer: "In my previous role, incident management was a core aspect of my daily responsibilities. When a critical issue arises, I follow a structured approach: first, I acknowledge the incident and log all relevant details in the ticketing system. I then perform an initial assessment to determine the impact and urgency, collaborating with relevant teams if necessary. I prioritize incidents based on their severity and business impact, ensuring that high-priority issues are addressed swiftly. During resolution, I keep stakeholders informed of progress and document the root cause and corrective actions.
