Reimbursement Codes for Ohio

SBIRT: An In-Depth Look

Reimbursement codes—primarily from the Current Procedural Terminology (CPT) and Healthcare Common Procedure Coding System (HCPCS)—are essential for billing SBIRT services. Understanding these codes ensures providers can recover costs and expand access.

Primary SBIRT Reimbursement Codes

CPT Codes are the standard billing codes used by healthcare providers for services rendered. | Service Component | CPT Code | Description | Usage Notes | |||| | Screening | 99408 | Alcohol and/or substance abuse structured screening and brief intervention services, 15 to 30 minutes | Used when conducting structured screenings, especially in primary care or behavioral health settings. | | | 99409 | Alcohol and/or substance abuse structured screening and brief intervention services, greater than 30 minutes | For longer or more intensive screening/brief intervention sessions. | | Brief Intervention | 99408 / 99409 | As above, depending on duration | Often combined with screening codes, but billing separately is possible if distinct sessions. | | Referral to Treatment | No specific CPT code | Usually documented within the context of brief intervention or additional services | Referral steps are documented internally; billing may involve additional

codes depending on services provided. | HCPCS Codes add further granularity, especially for Medicaid and private insurers. | HCPCS Code | Description | Notes | ||| | G0396 | Alcohol and/or substance abuse structured screening and brief intervention services; approximately 15 minutes | Often used in Medicaid billing. | | G0397 | ...; approximately 30 minutes | For longer sessions, similar to CPT 99409. |

Billing Procedures and Documentation Requirements

Effective reimbursement depends not only on the correct coding but also on proper documentation and billing

practices.

Documentation Essentials

- Screening Results: Document the type of screening tool used (e.g., AUDIT, DAST) and results. - Intervention Details: Specify the content, duration, and provider delivering the brief intervention. - Referral Records: Note referrals made, including the contact information and follow-up plans. - Patient Consent: Ensure informed consent is documented prior to services.

Billing Workflow

1. Perform the Screening: Use validated tools and record findings. 2. Deliver the Brief Intervention: Ensure the session duration meets billing thresholds. 3. Make Referrals as Needed: Document the referral process and patient engagement. 4. Complete Billing: Use appropriate CPT or HCPCS codes based on service duration and type. 5. Submit Claims Promptly: Follow payer-specific procedures, including attachments or supporting documentation if required.

Common Challenges and Solutions

- Incorrect Coding: Regular training and updates on coding changes. - Incomplete Documentation: Implement standardized templates. - Payer Rejections: Verify
