Sample Multiple Choice Questions and Answers on Final Accounts

Below are some carefully curated MCQs with detailed explanations to deepen your understanding of final accounts.

Question 1: Which of the following is NOT included in the preparation of a Profit and Loss Account?

- A) Gross Profit - B) Operating Expenses - C) Capital Introduced - D) Interest on Loan Answer: C) Capital Introduced
Explanation: The profit and loss account reflects the company's revenue, expenses, and net profit or loss for the period. It includes gross profit, operating expenses, interest, and taxes. Capital introduced is a financing activity and appears on the balance sheet, not in the profit and loss account.

Question 2: Which of the following is a current asset?

- A) Machinery - B) Goodwill - C) Inventory - D) Land Answer: C) Inventory
Explanation: Current assets are assets that are expected to be converted into cash or used within one year. Inventory, being stock of goods held for sale, qualifies as a current asset. Machinery and land are fixed assets, while goodwill is an intangible asset.

Question 3: Which item is deducted from gross profit to arrive at net profit?

- A) Rent received - B) Office salaries - C) Capital expenditure - D) Purchase of fixed assets Answer: B) Office salaries
Explanation: Gross profit is calculated by deducting the cost of goods sold from sales. To arrive at net profit, operating expenses such as salaries, rent, and utilities are deducted from gross profit. Rent received is income, and capital expenditure relates to fixed assets, not operating expenses.

Question 4: What does the balance sheet show?

- A) Profit or loss for the period - B) Financial position of the business at a specific date - C) Cash inflows and outflows - D) Details of sales and purchases Answer: B) Financial position of the business at a specific date
Explanation: The balance sheet provides a snapshot of a company's assets, liabilities, and equity at a particular point in time. It does not show profit or cash flows directly.

Question 5: Which of the following is classified as a non-current liability?

- A) Accounts payable - B) Bank overdraft - C) Long-term loan - D) Outstanding wages Answer: C) Long-term loan
Explanation: Non-current liabilities are obligations payable after more than one year. A long-term loan fits this category. Accounts payable and wages are current liabilities, and bank overdraft can be either, but typically considered a current liability unless specifically long-term.

Question 6: Which of the following adjustments is made for depreciation in final accounts?

- A) Deducted from assets in the balance sheet - B) Added to expenses in the profit and loss account - C) Both A and B - D) Neither A nor B Answer: C) Both A and B
Explanation: Depreciation reduces the book value of fixed assets on the balance sheet and is recorded as an expense in the profit and loss account to reflect the cost of using assets.

Question 7: Which of the following is NOT a capital expenditure?

- A) Purchase of machinery - B) Purchase of land - C) Maintenance of building - D) Construction of new office Answer: C) Maintenance of building Explanation: Capital expenditures are investments in assets that benefit the business over multiple periods. Maintenance expenses are revenue expenses, not capital expenditures.

Question 8: Which of the following is an example of a revenue receipt?

- A) Sale of equipment - B) Sale of goods - C) Issue of share capital - D) Loan taken from bank Answer: B) Sale of goods Explanation: Revenue receipts are inflows from regular business operations.
