- Settings and customization options

Despite its age, the interface remains user-friendly, offering quick access to essential functions with minimal distraction.

Key Features of the RNS MFD2 Audi System

Navigation Capabilities

One of the primary functions of the RNS MFD2 is its integrated GPS navigation system, which offers: - Turn-by-turn directions with visual and audio prompts - Preloaded maps covering extensive regions, often Europe or North America - Points of Interest (POI) database for locating fuel stations, restaurants, and landmarks - Route customization options, including fastest, shortest, or eco-friendly routes - Traffic updates (if connected to compatible services or hardware) While the navigation system was advanced for its time, modern expectations for real-time traffic and live updates may require supplementary hardware or software upgrades.
