Sample OET Letter to a Community Nurse

Below is a detailed sample letter to guide you in your OET preparation:

Dear Nurse Johnson,

I am Dr. Emily Carter, a general practitioner at Sunnyvale Medical Clinic. I am writing to inform you about Mr. John Smith, a 65-year-old patient under my care, who requires ongoing wound management following recent surgery.

Mr. Smith underwent a minor skin excision on his left forearm two weeks ago for basal cell carcinoma. The wound has been healing well; however, I have noticed early signs of infection, including increased redness, swelling, and mild purulent discharge. His temperature has been slightly elevated over the past two days.

I would appreciate your assistance in monitoring and caring for his wound during this critical healing phase. Please ensure the wound is cleaned regularly, and advise on appropriate dressing changes. Mr. Smith is also prescribed antibiotics—Amoxicillin 500mg three times daily for the next seven days. Kindly monitor for any adverse reactions.

Additionally, please assess his overall health, especially his blood glucose levels, as poorly controlled diabetes can impede wound healing. He is known to have type 2 diabetes, currently managed with metformin.

Please inform me if there are any concerns or if further interventions are needed. I recommend a follow-up appointment in one week to evaluate wound progress.

Thank you for your support in managing Mr. Smith's recovery. Feel free to contact me at (555) 123-4567 if additional information is required.

Yours sincerely,

Dr. Emily Carter
