7	How does currency depreciation affect a country's exports and imports?	Currency depreciation makes a country's exports cheaper and more competitive abroad, boosting export volumes, while making imports more expensive, which can reduce import consumption.

8	What is the role of automatic stabilizers in macroeconomic policy?	Automatic stabilizers, such as unemployment benefits and progressive taxation, naturally counteract economic fluctuations by increasing spending during downturns and reducing it during booms without the need for active policy intervention.
