Handling corrupted or incomplete files

Corrupted files may fail to open, display errors, or load only partially. These issues often result from interrupted downloads or storage errors. Verifying file size, checking download completion, and comparing files against official versions can help identify corruption. Re-downloading from a verified source is usually the quickest solution.

Performance and loading problems

Large files may load slowly, particularly on older devices or limited hardware. Compressing Afrikaans Vraestelle Vir Graad 8 without sacrificing quality improves performance. Splitting large documents into smaller sections can also enhance navigation and responsiveness.

Annotation and sync issues

Users may experience lost annotations or unsynced notes when switching devices. Ensuring that cloud sync is enabled and accounts are properly logged in helps maintain continuity. Regularly exporting annotations provides an additional safety layer for important notes.
