Understanding Management Accounting

Definition and Purpose

2. Cost control and reduction
3. Performance measurement and evaluation
4. Supporting strategic decision-making

Differences Between Management and Financial Accounting

Understanding the distinction is crucial:

1. **Audience:** Management accounting serves internal users; financial accounting caters to external stakeholders like investors and regulators.
2. **Reporting Focus:** Management reports are often forward-looking and detailed; financial reports are historical and summarized.
3. **Regulations:** Management accounting is less regulated, allowing flexibility; financial accounting adheres to standards like GAAP or IFRS.
